

Blessed Mother Mary.

She is the saint of all saints. She is the only person, besides her son, who was conceived without sin and never sinned throughout her life. She was always in union w/ God. She is the ultimate example for us. The thing about Mary is that she always always always points us to her son Jesus. In life and in the afterlife. A Marian Apparition is when Mary appears to someone and they can hear and see her. Over the centuries Mary has appeared to many people. Usually, she has a message for them to convey to the world. Ultimately this message is about bringing people to Jesus. While there are countless people who have claimed to have Mary appear to them, there are 25 Vatican approved apparitions. This means that someone says Mary appeared, the bishop agrees and approves then sends it Rome. They investigate and put their stamp of approval on it, meaning that it is believed to be true and legit. Mary has appeared all over the world to all kinds of people. Typically, when she appears, her head is bowed or tilted. This shows her submission- meaning that she is not God and she bows to God.
